SÜDARFIKA – Protea Banks 2005

Protea Banks is an impressive fossilised sand dune – a massive uprising some 7km offshore with caves, ridges and amphitheatres. The chief attraction that has put Protea on the diving map – is the year-round certainty of encountering sharks. The range of available species is formidable – from Zambezi, Dusky, Black Tip, various Bronze Whalers, and Hammerhead. This is deep diving and divers need to be qualified to Advanced level. We dive with shark without a cage. Learn to identify and respect their ability and range of senses and resultant behaviour; so as to be able to enjoy them in their own environment and to appreciate the need to conserve sharks.

The launch is a surf launch in semi-rigid inflatable boats. The conditions are not resort type and the boat ride to the Shoal is approx. 30 minutes and can be rough depending on the sea conditions.

Hluhluwe-Imfolozi wildlife park covers some 96 000 ha and an immense diversity of fauna and flora occurs in this region. Larger mammals to be seen include buffalo, blue wildebeest, zebra, giraffe, elephant, and large numbers of impala, waterbuck, common and mountain reedbuck, nyala, kudu, bushbuck, steenbuck, duiker, warthog, black rhino, lion, leopard, cheetah, hyaena and jackal. In excess of 300 species of birds have been recorded.

Andy Cobb the Sharkproject SA Ambassador and honorary member will be running the Sharkschool and tours. Andy has been running certificated shark diving courses since 1990, with over 900-hours logged underwater with sharks, 23-years of recorded shark behaviour and introduced over 7000-divers to shark. Andy is the first Underwater and Shark Diving Guide of SA also an accredited Nature guide. Andy is an accredited Underwater and Shark Diving guide Trainer and Assessor.

PACKAGE Protea Banks/South Africa
